The listing below is set in a font whose name says nothing.

```
start:
    mov   r0, #0        ; counter
loop:
    add   r0, r0, #1
    b     loop
```

This note is set in a font that claims to be fixed pitch,
but its letters have different widths, so it is ordinary
text and its lines are joined into one paragraph.
